

— Pelican Post —

We need to stop polluting Pelham!

My name is Charlie, and I want to stop polluting Pelham. If you are interested in helping, please email

dosecha@pelhamschools.org.

My goal is to create a better place for Pelham citizens. I will also be starting a fundraiser for garbage trucks to come collect our trash.

I will also be saving up for a suggestion box for the town hall, which will enable our town to be more open to the public.

A suggestion box will allow people from our wonderful town to give their opinion to make our town a better place!

If you read this please spread the message of my article. Again, contact

dosecha@pelhamschools.org for info on fundraising to make pelham a better place! Spreading this message to others minds will increase our chances of reaching our goal of cleaning up Pelham and creating a more open-minded environment for Pelham's wonderful citizens!
